

# ULTRA LED™ Motion Sensor A19

## Features & Benefits

- Quick and easy installation in standard E26 socket
- Built-in dusk to dawn sensor which turns on only when ambient light is not present
- Wide detection angle of 360°
- Can be mounted base up, base down, or horizontally
- Turns off after 40 seconds when motion is not detected
- Ideal for porch, corridor, balcony and stairs in both residential and commercial applications
- Long life up to 25,000 hrs (L<sub>70</sub>)
- Omnidirectional
- 10' to 15' detection range

## Product Features

SYLVANIA ULTRA LED Motion Sensor A19 lamp detects motion and illuminates. The built in motion sensor has a 360° angle of sensing, with a range of 10-15 feet. The lamp also has a dusk to dawn sensor that only activates the motion sensor when ambient light is not present, making the lamp the most energy efficient.

The LED Motion Sensor A19 is ideal for illuminating porches, corridors, balconies and stairs without the need to physically turn on the light switch. The bulb can also be used for security and safety purposes when an area is hazardous without any lighting.

These 9W lamps deliver 800 lumens with a color temperature of soft white 2700K and a long rated life of 25,000 hours (L<sub>70</sub>).

## Application Information

### Applications

- Commercial
- Hospitality
- Office
- Property management
- Residential
- Retail

### Application Notes

1. Operating temperature range between -20°C and +45°C (-4°F and + 113°F)
